Personal skills and competencies

Language	Understanding	Speech	Writing
English	8	7	8

Driving license: B category

Organizational skills and competencies

Working in a team, discipline, obedience, desire to learn new technologies and tools

Computer skills and competencies

In college I encountered many programming languages and tools, some of them are: C++, Vue.js, MySQL, MongoDB, Firebase, Big Data Analytics using Python, C#, Java, Javascript, Git, PHP Laravel, Tensorflow, Node.js and many others. Also, I've been learning PHP Laravel for the past few months and have made a few small projects for practice.

At the previous workplace, I mostly used VB6, C#, SQL Server. In my free time, I mostly use Python, IoT devices, bash scripts, cronjobs, creating web servers and REST APIs, and many other things, especially those related to the Linux operating system. I use Fedora every day, and I also spend a lot of time programming the Raspberry Pi.

Other skills and competencies

Playing sports in my freetime
