Personal skills and competencies

Language	Understanding	Speech	Writing
English	9	7	8

Driving license: B category

Organizational skills and competencies

Working in a team, discipline, obedience, desire to learn new tehnologies and tools

Computer skills and competencies

In college I encountered many programming languages and tools, some of them are: C++, Vue and Vite, MySQL, MongoDB, Firebase, Big Data Analytics using Python, C#, Java, Javascript, Git, PHP Laravel, Tensorflow, Node.js and many others.

At the previous workplace, I used Kotlin, Laravel, Docker, BASH scripts, ADB, SSH. In my free time, I mostly use Python, IoT devices, bash scripts, cronjobs, managing webservers and REST APIs, web scraping and many other things, especially those related to the Linux operating system. I use Fedora every day, and I also spend a lot of time programming the Raspberry Pi.

Other skills and competencies

Playing sports in my freetime
